## **Zebra Crossings statement concerning COVID-19**

Zebra Crossings has a duty to protect the health and well-being of all participants and staff in our communities. As we create safety protocols for our programs and events in 2022 we will rely on the guidance of trusted medical experts.

Zebra Crossings requires that every person eligible to receive a vaccine must do so and show proof of vaccination before participating in one of our programs. This includes all our participants, staff, and volunteers aged 5 and older.

Each program will also include specific COVID protocols, which may change based on the current circumstances. Participants need to be willing to adapt to guidelines including, but not limited to, handwashing, wearing a mask, physical distancing, etc. Details will be provided prior to each program.

Please check our [Program Calendar](#) for upcoming programs and events as we are continuously adapting what we offer to meet the needs of our community.
